*To be considered a family of one, an individual 18-24 residing in the home must have earned at least **\$4374** during the prior six months (30% of \$14,580). See current Youth Eligibility directive for details of 'family of one' and independent/dependent definitions.

**The 2023 HHS poverty level for a family of one is \$14,580. Staff must use this standard for families of one as it is a higher standard than 70 percent of the 2023 LLSIL for a family of one.

***Self sufficiency wage rate is $\$36450/2080 = \17.52 . Minimum wage for underemployed OJT trainees is $\$17.52 \times 90\% = \15.77 .

NOTE: To calculate the LLSIL for family sizes above eight, add the difference between a family of six and a family of five for each family member beyond six (e.g., $\$54,091 - \$46,254 = \$7,837$, which when added to \$54,091 equals \$61,928 for a family of seven, and when added to \$61,928 equals \$69,765 for family of eight, etc., when using 70 percent of the 2023 LLSIL).
