## LOCAL DIRECTIVE

Directive #: <u>18-172 REV 4</u> Date: <u>June 1, 2021</u>
--

TO: SkillSource Staff and Service Providers  
FROM: Dave Petersen, Executive Director  
SUBJECT: Dislocated Worker Eligibility Determination  
SUPERCEDES: Directive 18-172 REV 3

---

### **REV 4 Change Summary**

- Clarified eligibility for separating military service members, including those still serving but with notification of future separation
- 

### **Eligibility:**

After receiving at least one career service and being determined in need of additional services individuals must meet the following eligibility criteria for the Dislocated Worker Program:

- U.S. citizen or otherwise legally entitled to work in the U.S.; and
- Selective Service Registration (males who are 18 or older and born on or after January 1, 1960), unless an exception is justified
- One of the Dislocated Worker criteria as defined in WIOA Section 3(15) and TEGL 22-04.

### **Application & Documentation:**

To ensure adequate eligibility determinations, documentation for each applicant is required. Adequate documentation includes:

- A completed application for each applicant.
- Copies of documents used to determine eligibility as outlined in the attached verification form.
- The Dislocated Worker Verification Form outlines acceptable forms of documentation including self-attestation where appropriate. Self-attestation may be used, where indicated, when other forms of documentation cannot be obtained. Self-attestation can be a signed and dated WIOA eligibility application as it includes an acknowledgment that falsification of the information shall be grounds for immediate termination and may subject the applicant to other penalties under the law.
- A Training Manager or his/her designee will review each file for correct eligibility determination and sign at the top of the Eligibility Verification Record upon review. Data will be entered into the ETO/WAWIN data system.

### **Definitions / Criteria:**

- Substantial Lay off:  
Any reduction in force which is not the result of a plant closing and which results in an employment loss at a single site of employment during any 30 day period for:

- (a) (1) At least 33 percent of the employees (excluding employees regularly working less than 20 hours per week); **and**  
(2) At least 50 employees (excluding employees regularly working less than 20 hours per week); **or**
- (b) At least 500 employees (excluding employees regularly working less than 20 hours per week).

- Unlikely to return to a previous industry or occupation:

A person may be considered unlikely to return to their previous industry or occupation when any of the following apply:

- 1) The previous industry or occupation is in low demand or decline within the local area.
- 2) The individual's skills are outdated to re-enter the labor market in that occupation or industry.
- 3) Current job listings show no position openings (for same job from which applicant was separated) with wages higher than 90% of previous wage.
- 4) The individual has a physical or mental limitation that has rendered them unable to perform their previous occupation.
- 5) The individual is 55 years of age or older
- 6) The individual was terminated for conduct that precludes them from returning to that specific occupation.

- General Announcement of Plant Closure:

Criteria:

- 1) Announcement must be made by the employer, **and**
- 2) Indicate a planned closure date

- Unemployed as a result of general economic conditions in the community in which the individual resides or because of natural disaster: For individuals who were self-employed (including farmers, ranchers and fisherman) and are unemployed.

- 1) Categories of economic conditions resulting in the dislocation of a self-employed individual may include, but are not limited to:
  - a) Failure of one or more businesses to which the self-employed individual supplied a significant proportion of products or services;
  - b) Failure of one or more businesses from which the self-employed individual obtained a significant proportion of products or services;
  - c) Substantial layoff(s) from, or permanent closure(s) of, one or more plants or facilities that support a significant portion of the local economy.
- 2) Categories of natural disaster include, but are not limited to, any hurricane, tornado, storm, flood, high water, wind-driven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, drought, fire or explosion.

### Military Service Members

As per TEG 22-04, a military service member who is separated from military service under conditions other than dishonorable, or, who receives a notice of future separation, may be eligible under the WIOA Dislocated Worker program based on the "termination" criteria. This may include National Guard or Reserve members who have been discharged from active duty service, but not necessarily from other reserve commitments, such as training.

WorkSource Policy 1019 Rev 4 States that Washington State has determined that still active, transitioning military service members may also qualify for Dislocated Worker Program services. While these individuals may be eligible to receive WIOA Dislocated Worker Program services and funds, they would not be considered 'veterans' for the purposes of DOL reporting.

For the purposes of serving still-active transitioning service members under the "notice of termination or layoff" eligibility criterion, documentation must align with the DOL Data Element Validation (DEV) requirement for

“Date of Actual Qualifying Dislocation”. Military personnel are eligible to begin receiving Dislocated Worker Program services upon receipt of discharge orders (Effective Termination of Service “ETS” Orders or DD2648-ACAP Transition Checklist). Length of service to qualify an individual for such discharges or separations under WIOA guidance may be as few as one day of service. Qualified individuals can receive services up to 180 days prior to date of discharge.

The following serves as an outline of Dislocated Worker eligibility criteria as it applies to military service members:

- Has been terminated or laid off or received notice of termination or layoff. TEGL 22-04 states that a discharge from the military under honorable circumstances meets the “termination” criterion. A DD-214 form is the most common documentation used to determine discharge status. WorkSource Policy 1019 Rev 4 specifies that persons retiring from military service do not qualify as “terminated” or “laid off”.
- Is eligible for unemployment insurance (UI) benefits or has exhausted UI entitlement; or has had an employment duration that shows attachment to the workforce. 20 CFR 680.660 and TEGL 19-16 state that separating service members automatically meet this criterion. Is unlikely to return to a previous industry or occupation. 20 CFR 680.660 and TEGL 19-16 state that separating service members automatically meet this criterion.

### **Spouses of Military Service Members**

TEGL 22-04 clarifies that the term “military spouse” includes individuals who are married to active duty service members (including National Guard or Reserve personnel on active duty) and surviving spouses of active duty service members who lost their lives while on active duty service in combat-related areas (e.g. Afghanistan or Iraq).

When the spouse is unable to continue an employment relationship due to the service member’s permanent change of military station, or the military spouse loses employment as a result of the spouse’s discharge from the military, then the separation from employment meets the termination component of the WIOA definition of Dislocated Worker. Eligibility determinations must align with UI policy regarding “good cause” for voluntary quits. Below are two common scenarios that would qualify:

- The spouse of a military service member voluntarily quits because he/she is relocating with the service member to a new duty location.
- The spouse of a military service member is no longer eligible to work on the base as a result of the (military service member’s) discharge.

**NOTE:** Good cause is **not** found when a claimant quits work to relocate someplace other than the military spouse's or domestic partner's new duty location, including relocation to the home of record or elsewhere.

As provided in TEGL 22-04 Change 1, “termination” of military spouses based on the circumstances described above can be considered to meet the “unlikely to return to a previous industry or occupation” in order to qualify as a dislocated worker. Determination is a matter of judgment based on relevant circumstances, but in most cases, military spouses impacted by a service member’s duty reassignment or discharge will meet the “unlikely to return to a previous industry or occupation” criterion of WIOA and could be served as dislocated workers.

A military spouse can also be served as Dislocated Worker if he/she meets the definitional requirements for Displaced Homemaker (see definition).

### **Employed Dislocated Workers:**

Employed Dislocated Workers must meet the underemployed/ not self-sufficient definition to receive career and training services. (See Local Directive)

**Stop Gap Employment:** is temporary work an individual accepts only because they have been laid off from the customary work for which their training, experience or work history qualifies them. Stop-gap employment must be temporary in nature with the intent to end employment upon completion of training, obtaining self-sufficient employment or as specified in the individual employment plan (IEP).

Typically, stop-gap employment will pay less than the self-sufficiency wage, however, there may be specific circumstances where stop-gap employment does provide a sufficient wage temporarily but is not considered permanent employment that leads to self-sufficiency. (ie: temporary, seasonal or lower skilled work, or a position that is inconsistent with the participant's occupational goal and/or IEP) This stop-gap employment would not change the individual's dislocated worker status if it meets the WDC's criteria.

An otherwise eligible Dislocated Worker remains eligible if either prior to, or during DW program participation, stop-gap employment is obtained for the purpose of income maintenance. If dislocation from a stop-gap position occurs, the job of dislocation remains the original job that established the self-sufficient income. If, at any time, an individual obtains employment that meets self-sufficiency, then that position would be considered the self-sufficient job of dislocation in the event of a future dislocation.
